Dear Mr. Webb:

25X1 [redacted] who originally obtained your kind agreement to consider the definitions of intelligence terms informed me that you would be able to go over additional terms. I therefore am taking the liberty of enclosing herewith a further list of definitions which have been prepared by the CIG.

The remarks you sent us in criticism of the previous list of definitions were most helpful. Changes which you suggested were incorporated, and the definitions without any doubt were improved materially through your cooperative assistance.

Would you be so kind as to help us out once more in the same manner?

25X1 Since [redacted] has recently left us, it would be appreciated if you would address your reply direct to me as follows:

Very truly yours,
